South Florida Super Doctors Top Physician

for Spine Surgery

Dr. Gleiber focuses his practice exclusively to injuries and diseases of the cervical, thoracic and lumbar spine. He treats all spinal disorders including herniated discs, spinal stenosis, scoliosis, myelopathy, degenerative disc disease, spondylolisthesis, spinal trauma, and tumors and infections of the spine.

A native of South Florida, Dr. Gleiber attended The University of Miami where he received his Bachelors of Science degree. He earned his medical degree from The George Washington University School of Medicine in Washington, D.C. Dr. Gleiber was the recipient of several awards including the Julius Nevaizer Award for the most promising future as an orthopedic surgeon, the Alec Horwitz Scholar Award for the most honors grades during the first year of medical school and graduated with Alpha Omega Alpha Honors.

Dr. Gleiber completed his internship in general surgery and residency at Columbia University, an Ivy League research university in New York City. Dr. Gleiber was recognized by the faculty at Columbia University in the Department of Orthopedic Surgery at Columbia University. He received the Harold M. Dick Award for excellence in orthopedic surgery, the Harrison McLaughlin Award for demonstrating excellence in orthopedic trauma surgery and the Leonard Marmor Surgical Arthritis Foundation Award.

Dr. Gleiber was selected to serve as Administrative Chief Resident in his final year at Columbia University. After residency, he attended The Kenton D. Leatherman Spine Surgery Fellowship where he received neurosurgical and orthopaedic training in all areas of the spine. While in fellowship, a significant portion of his time was devoted to treating spinal trauma and spinal cord injuries.

Dr. Gleiber is a frequently invited guest lecturer at research institutions and hospitals where he is asked to share his knowledge on the surgical and nonsurgical treatment of various spinal conditions.
